

TURBINE OIL VARNISH REMOVAL SUCCESS

In April, a client in Middle East faced varnish issue in their critical machinery. Our HYPRO Oil Conditioning Unit tackled varnish issues in their critical machinery, enhancing performance significantly. Another proof of our commitment to effective solutions and client satisfaction.

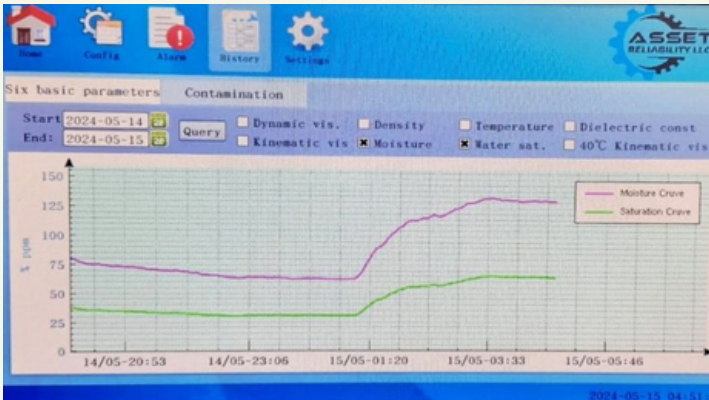

SUCCESSFUL COMPLETION OF MACHINERY LUBRICATION TRAINING WITH ADNOC GROUP

In May, our Machinery Lubrication Training for ADNOC Group in Abu Dhabi, enhanced their expertise in lubrication best practices, diagnostics, and analysis. With this training, the analysts are now better prepared to optimize machinery performance, reduce downtime, and extend equipment life, ultimately contributing to ADNOC's operational excellence and reliability.

SUCCESSFUL COMPLETION OF MLA -II TRAINING AT UNITED ENERGY PAKISTAN

In June, the MLA-II (Machinery Lubrication Analysis) training session at Mövenpick Hotel, Karachi, provided a valuable opportunity to engage with maintenance leaders from United Energy Pakistan. Their insights were invaluable, greatly enhancing the training experience.

PILOT PROJECT STUDY USING LUBESPY OMS-2200 ONLINE MONITORING SYSTEM

Asset Reliability LLC successfully conducted a pilot project using OMS2200 Oil Monitoring System. The team designed a test bench with the OMS2200 system to replicate industrial lubrication conditions, enabling real-time monitoring of key oil parameters. By introducing contaminants like water, dust, and various oils, real-world scenarios were simulated. The OMS2200 data was compared with lab results, confirming its accuracy and reliability. The system proved adept at detecting oil condition changes and triggering alarms, showing potential to reduce downtime and maintenance costs.

EASY-SAM MOTORIZED SAMPLING PUMP

Successfully supplied another batch of our Easy Sam Motorized Sampling Pump to a valued customer. This state-of-the-art pump is designed for efficient and reliable sampling, providing accurate and consistent results. Its motorized operation ensures ease of use, minimizing manual effort and maximizing productivity. Customer now enjoys enhanced sampling precision and operational efficiency, demonstrating our commitment to delivering top-quality solutions.

FIVE YEAR LUBRICATION RELIABILITY CONTRACT

Asset Reliability LLC recently secured a 5-year Lubrication Reliability Contract with major Oil and Gas company in Middle East. The contract scope involves lubricant health assessment and management for their critical rotating machinery fleet, emphasizing proactive measures to ensure uninterrupted and reliable operation.
